| DELIVERABLE             | DESCRIPTION                                                                                                                    | PRICE |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------|-------|
| Pagination              | Paginated layout (10/page) with navigation controls for transaction history and user list.                                     | €50   |
| User List Search        | Search bar for the admin user list — filter by email, name, or user ID.                                                        | €20   |
| User Generation History | Full generation history per user in admin: thumbnails, prompts, model, timestamps, and status. Backend endpoint + frontend UI. | €100  |
| Withdrawal popup fix    | Success popup showed €0.00 instead of actual amount.                                                                           | Free  |
| Admin performance       | Skeleton loading, data caching, parallel API calls, N+1 query fix.                                                             | Free  |
| Admin logout            | Add missing logout to admin header.                                                                                            | Free  |
| Total                   |                                                                                                                                | €170  |
